## PurePro™ Flexible Reinforced PVC Water Supply Connectors for Ice Makers

Sizes: 1/4" (8mm)

PurePro Flexible Reinforced PVC Water Supply Connectors for Ice Makers are used in residential and commercial applications, specifically for hookups to the icemaker water supply on refrigerators. These connectors provide protection from vibration and bursting under extreme pressure surges. Their flexibility also facilitates the moving of a refrigerator without danger or permanent damage from kinked copper tubing. PurePro consists of PVC tubing jacketed with polyester knitted nylon, protective PVC outer layer, and permanently attached, brass, compression end fittings.

### Features

- Tubing
  - PVC
  - Polyester knitted nylon jacket
  - Protective PVC outer layer
- Brass compression end fittings and barbs
- Convenient for difficult installations

### Approvals

- Hoses are NSF 61 approved for safer drinking water

### Standards

NSF and UPC Listed

### Pressure-Temperature

Maximum Working Pressure: 125psi (8.6 bar)

Maximum Temperature: 140°F (60°C)

**Note:** National residential plumbing codes reference the maximum operating temperature as 140°F (60°C). Plumbing fixtures are designed to ANSI-ASME A112 18.1 at 125psi.
