

#36-335

## Hydronic System Cleaner

PurePro® Hydronic System Cleaner is a non-petroleum hydronic water system cleaner and lubricant for seals and parts. For use with both new and existing hydronic systems, the PurePro Hydronic System Cleaner stays in the system and will not swell seals or deteriorate rubber, buna, buna-S, neoprene, teflon or any metals. Insures against call-backs, maintains and restores design efficiency of the system and it saves fuel dollars.

- Liquefies built-up sludge
- Cleans coils
- Lubricates zone valves
- Inhibits corrosion
- 32 oz.

#36-135

## Boiler System Cleaner

PurePro Boiler System Cleaner is used by introducing it through any safety valve or convenient opening in the boiler. Treatment is complete when water changes to a shade of blue.

- Color coded for easy use
- Cleans boiler water
- Prevents rust and corrosion
- Dissolves sludge
- Balances PH
- Will not swell seals
- 32 oz.

#36-213

## Steam Boiler Cleaner

PurePro Steam Boiler Cleaner works like a sponge absorbing any cutting oil, grease, sludge or organic algae, which sits on top of the boiler water and prevents it from boiling.

- Non-toxic, safe
- Works while boiler operates
- Provides dry steam
- Will not swell seals
- Easy-to-use
- Improves heat transfer
- Eliminates pipe noises
- Gives more uniform radiation
- Can be used on a regular basis
- Stops priming and surging
- Environmentally safe
- 8 oz.
